

Mr **Duale Siad**

me@wale.au

 [/spellsaidwrong](#)  [wale](#)  [wale.au](#)

Summary

I am a self-motivated, adaptable software developer with a wealth of experience using tools such as the JVM, with a keen interest in Node.js and Python.

Education

Bachelor of Information & Communication Technology / **Swinburne University of Technology**

02/2023 - present

Diploma of Information Technology / **RMIT University**

03/2022 - 11/2022

Certificate III in Information, Digital Media and Technology / **IVET**

02/2020 - 11/2021

Work Experience

System Administrator / **Self-employed**

04/2022 - present

- Run and maintain various Australian repository mirrors for Linux distributions, such as Arch Linux and Termux, where the service in total averages 20,000 visitors a day.
 - Automated the system running the repository mirrors using Ansible.
 - Monitored security and network usage using Grafana.
-

Open Source Developer / **Self-employed**

05/2017 - present

- Created open-source projects utilising Java, Kotlin and TypeScript.
- Built software development processes using Gradle.
- Used and secured continuous integration tools using Jenkins by allowing the server to use role-based authentication
- Wrote plugins for the Gradle build system that allowed users of Tailwind CSS to integrate it with their Java-based projects.

Interests

- Software and backend development using **Java & Kotlin**.
- Web development using **Node.js**.
- Automating **Linux** systems using **Ansible**.
